**SERVICE PACK INSTRUCTIONS**

Please follow the instructions below in order to download and install the current Service Pack. You MUST have version 6.0 of the Relius Documents software in order to use this service pack. If you update a prior version of the system with this Service Pack, your system may be INOPERABLE. If you are not certain which version of the software you have, open Relius Documents and click Help | About.

NOTE: If you have a "network" version of Relius Documents, the service pack MUST be applied to ALL 6.0 RDPC workstations.
